Increase milk production with a Cover-All[®] Dairy Barn

More Light

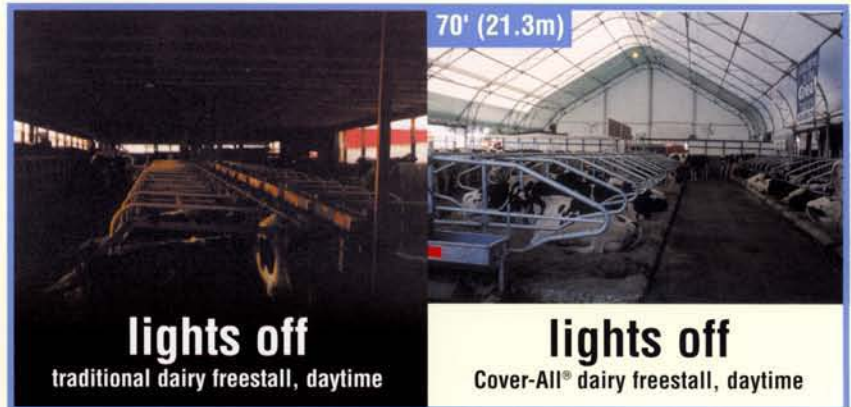

Cover-All[®] buildings have naturally bright interiors stimulating milk production and animal growth. Our DuraWeave[®] fabric covers have translucent properties exposing dairy cattle to greater amounts of light – a factor that studies have shown increases milk production.

More Comfort

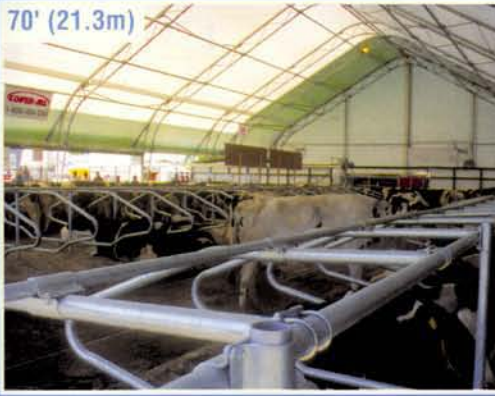

Our covers dramatically reduce temperature fluctuations which moderate interior temperatures year-round to reduce stress on your animals. Achieve superior air quality and ventilation with the addition of ridge vents, adjustable side curtains and eaves. The clear-span design offers unobstructed layouts to accommodate a multitude of your stall, feed alley and scrape alley requirements.

More Profit

Lower your operating costs with a naturally bright Cover-All[®] building. The natural light enhances the growth and productivity of your herd.

Dairy Layouts

Cover-All® buildings are available in a variety of pre-engineered, clear-span building sizes to accommodate a variety of dairy and calf barn layouts for maximum useable space and herd comfort.

More Milk Production

"The ventilation and air quality is excellent. We raise the side curtains in the summer and it's just like a big shade tree for the cows. Since our building has been in operation I've seen a five pound increase in milk production per cow per day."

Roger Sprakel - Sprakel Farms Inc., Nebraska, USA

More Productive Herd

"There is no comparison in natural light and air quality between a Cover-All free-stall barn and a conventional barn. We are now milking 350 cows as quickly as we were milking 175 cows a year ago, with less production costs. We are extremely pleased!"

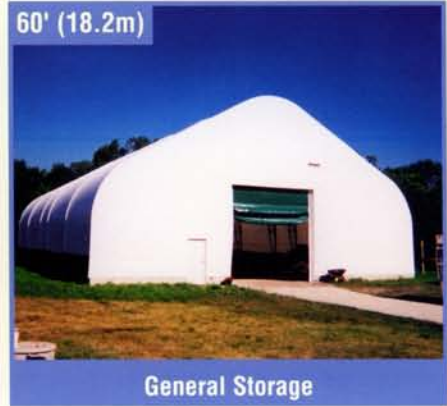

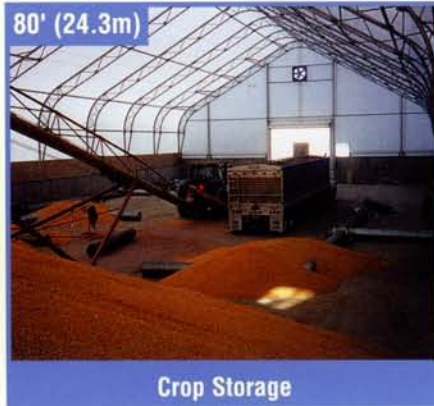

Dan Huls - Huls Dairy Inc., Montana, USA

The above designs are examples of layouts our customers have used. Additional design considerations will be required to tailor plans to your needs.

Cover-All® Building Solutions for Your Dairy Business

Talk to your local Cover-All® Dealer for all your building needs including equipment, crop and general storage.

Cover-All® – Your Building Solution

Cover-All® buildings are pre-engineered for use worldwide. They are available in widths from 18' (5.4m) to 160' (48.7m), to any length and can be extended at any time. Your Cover-All® Dealer will work with you to determine the best building solution for your dairy business.

The Cover-All Advantage

Atmosphere

Cover-All® buildings provide natural lighting, exceptional air quality and unsurpassed sound-dampening properties.

Customize

Your Dealer will work with you to incorporate colors, ventilation, interior layouts and door and end wall options into your building.

Versatility

Unlike a single-purpose building, a Cover-All® will serve many functions over the years, from commodity storage or a bright equipment workshop, to a livestock facility.

Quality

Our buildings are designed for strength and durability with high quality building components and are backed by the best product support team in the industry.

Installation

Cover-All® buildings are quick to install and allow for flexible foundation options.

Commitment

Be confident, your Cover-All® building is backed by the world's best. Behind each building is a worldwide team of dedicated professionals, an ISO 9001:2000 certified manufacturing facility, and continual investment in product research and development to ensure we remain the industry leader.

Built for Strength and Durability

DuraWeave® Covers

Cover-All's high performance covers are virtually maintenance free and backed by a 15-year pro rata warranty. DuraWeave's patented double stack weave provides unmatched strength to weight ratios and tremendous rip, tear and puncture resistance. Our covers are available in a variety of colors.

ViperSteel® Framework

Our framework is constructed with ViperSteel® and clad with triple-coated Gatorshield® corrosion barrier. Independent salt-spray tests show that Gatorshield® provides a service life three times longer than conventional galvanized steel. All welds are sandblasted and finished with a state-of-the-art molten zinc anti-corrosion process.

Backed by Service

Worldwide Dealers

We are the industry leader committed to enthusiastically satisfied customers. Your dealer can assist you with permitting and installation, and will provide you with service and support long after your building is complete.

Cover-All Flex Lease Program

We have partnered with leaders in the industry to offer you more choices in making a Cover-All® building the affordable solution for your business needs. Cover-All® Dealers make it easy to arrange a lease program that meets your business's financial plan.
