

Ride Inside

Equine Building Solutions

365 Days to Ride

Enjoy Natural Light – Inside

Riding conditions are better inside a controlled, bright, fresh, spacious Cover-All®. The vast amount of natural light creates a comfortable sunny-day feeling, eliminating shadows and reducing energy demands.

Optimum Facilities

The sound dampening qualities of a Cover-All® building provide an exceptional level of quietness, while the covered riding surface offers more consistent footing, allowing you and your horse to work to your maximum potential, focused and free from distractions.

Riding, Training and Stabling Solutions

A Cover-All® provides the feeling of riding outdoors within the safety, comfort, and convenience of the indoors offering the ultimate design flexibility for your stabling and riding arena requirements.

"The sense of openness is the natural environment that horses and riders love. From a Dressage trainer's point of view, it is so easy to get the horse and rider to concentrate. The peaceful acoustical qualities of the building allow little distraction and it is so easy to instruct because everyone can hear. I have been to many conventional riding arenas with the low ceiling and artificial lighting, it is always a welcome treat to come home and re-experience the qualities of my Cover-All riding arena."

◆

Year-round temperature moderation and natural lighting inside a Cover-All® mean a more enjoyable equestrian experience for both the horse and rider.

Customize Your Cover-All®

Your Cover-All® can be designed to incorporate accessories and options to create your optimum facility.

Designed for Strength and Durability

Cover-All® Legend™ Building Series

Cover-All® Legend™ buildings are pre-engineered for use worldwide. They are available in widths from 18' to 82' (5.4m to 24.9m) and can be used for wall and ground mount applications. Contact your local Cover-All® Dealer for more information about profiles, heights, and sidewall clearances.

DuraWeave® Covers

Cover-All's high performance DuraWeave® covers are virtually maintenance free. The patented double stack weave provides unmatched strength to weight ratios and tremendous rip, tear and puncture resistance. DuraWeave® and DuraWeave® FR covers are backed by 15 and 10 year pro rata limited warranties respectively, and are available in a variety of colors.

ViperSteel® Framework

Our framework is constructed with ViperSteel® and clad with triple coated Gatorshield® corrosion barrier. Independent salt-spray tests show that Gatorshield® provides a service life three times longer than conventional galvanized steel. Welds are sandblasted and finished with a state-of-the-art molten zinc anti-corrosion process.

The Cover-All® Advantage

Atmosphere

Cover-All® buildings provide natural lighting, excellent ventilation control and extraordinary sound dampening properties.

Quality

Cover-All® buildings are engineered for strength and durability with the highest quality building components.

Versatility

From riding arenas and stabling to hay and equipment storage, Cover-All has solutions to meet all your equestrian building needs.

Installation

Cover-All® buildings are quick to install and allow for flexible foundation options.

Commitment

Be confident, your Cover-All® building is backed by a worldwide team of dedicated professionals, a state-of-the-art manufacturing facility, and continual investment in product research and development to ensure we remain the industry leader.

Backed by Service

Global Dealer Network

Your local, independently owned, authorized Cover-All® Dealer is part of a worldwide product support network that will provide you with service and support for all your building needs - before, during and after your building installation.

Cover-All® Flex Lease Program

We have partnered with leaders in the industry to offer you more choices in making a Cover-All® building the affordable solution for your building needs. Cover-All® Dealers make it easy to arrange a lease program that meets your financial plan.

"After spending a number of years teaching in a traditional arena, I chose to build a Cover-All. It is a decision I will never regret. In winter it's much warmer and I never miss a day of teaching or riding. The acoustics are excellent too; I never get hoarse from trying to be heard. The horses love the natural light and spaciousness of the arena. For them it is like jumping outside all year round. The customer service that I have received from all the members of the Cover-All team is second to none."
